# PowerDot MT

by Therabody

The acquisition of PowerDot underscores Therabody's commitment to democratizing medical technology by bringing industry-leading recovery and wellness solutions. The PowerDot MT Clinic Kit is a revolutionary electrical stimulation modality which allows clinicians to service their in-clinic and remote therapy needs with a wireless and portable solution via the PowerDot MT Advantage.

## The Clinic Kit Advantage

- Execute up to **16 simultaneous electrical stimulation sessions at the same time in-clinic** using an iPad
- Remote capabilities allow clinicians to send electrical stimulation therapy programs directly to an **infinite amount of patient's phones**
- **Monitor in-clinic & remote therapy adherence** with quantifiable, objective program use data
- Uncompromised **versatility and portability** with Bluetooth technology
- **Decrease Estim footprint** in the clinic by eliminating long wires, cables, and towers
- Administer **push notifications** to remind remove patients to complete therapy session
- **Increase value** by renting/leasing PowerDot MT "pucks" for remote use and therapy beyond the 4 walls of the clinic
- **Streamline efficiencies** with app software that has **25+ NMES rehab** (including triggered NMES), **30+ TENS/pain management**, **10+ performance massage** built-in custom protocols addressing over **50+ medical conditions**
- Long lasting **magnetic electrode pads** for a safe and effective connection
- PowerDot MT "pucks" provide 6+ hours of continuous use charge

## Clinic Kit includes

1. (8) PowerDot MT compatible patient pucks
2. (8) 45cm two-channel lead cable
3. (8) 15cm two-channel lead cable
